

# PARENT FORM

## 8<sup>th</sup> Grade Mathematics

Mr. Ventimiglia

Welcome back! I have had the opportunity to introduce myself to your child and discuss the expectations for the upcoming year in math class. Understanding these expectations is the most important first step to having a successful year in class. I have asked your child to review these expectations with you. Please sign this form acknowledging that you have read the course expectations sheet for your child's 8<sup>th</sup> grade mathematics course.

In addition, if you would prefer that routine communication be conducted through email instead of contact by phone during school hours, please include your email address. ***Be sure to print clearly so that I may copy it to the address book correctly.*** I will send a test email within the next couple of days to make sure it goes through. You will then have my email address. For your information, these expectations and additional resources for the class are on my website: [www.mrvmath.com](http://www.mrvmath.com) Please take some time in the next few days to go through the website. There are countless resources and information for your child and yourself that will be helpful throughout the year.

Mr. Ventimiglia
